No user found

New To Total Global Sports?

Please select the button below to create your new account for you and your children.

Click Here To Create an Account

STEP 3: Adding a Child. Input Information.

Important Note: A parent cannot have the same email as a child 13U and older. Please be prepared to supply a player email for each child you will be registering 13U and older.

STEP 4: Pre Register Your Child for Player Placement 2023.

Important Note: You will be asked for a team/coach preference. You can revise this information at a later time if things change. This is non-committal and meant to inform, not to decide. This process also has no fee (free to pre-register).

STEP 5: Agree to "terms of use" agreement.

ATTENTION! IF your child is already registered in TGS and is using your email, you can revise your child's email address by signing in to the child's player account. Steps to do this [CLICK HERE](#). Or you can use a different email address for your parent portal. The TGS Email rule is to provide a distinct, independent email for college scouts on the player's college profile account.
